Asbestos Removal.

Asbestos can be found in any house or building built before the year 2000 as it was widely used in a variety of building materials. If asbestos materials are in good condition, and in a place where they are unlikely to be disturbed, then they should not cause any harm. It is only when the materials are damaged or disturbed, so that fibres are released, that asbestos can become a danger. With age most asbestos materials start to degrade and become dangerous.

We take the greatest care with any asbestos removal project. Safety is of the utmost importance and we need to ensure all hazardous materials are removed from the site and disposed of ethically. We follow a strict asbestos removal procedure and all our technicians are UKATA A&B trained and we work to the highest standards.

We will happily survey your asbestos removal project free of charge and our prices are fair.

Garage Roofs.

Your Garage roof is essential, It keeps the weather out, provides security and makes your garage look like a safe structure. We have over 60 years experience with Garage roofs in West Yorkshire. We can either completely replace or repair your existing garage roof to make your garage like new again.

We install coated steel roofing systems in a choice of colours (Grey, Green, Brown, Terracotta and Red). We will manufacture plastic coated full length sheet to fit your garage exactly.

We can install drip stop coating to reduce the impact of condensation. Our aim is to make your garage roof as weather tight and secure as possible to protect your vehicle and belongings. Call us on **0500 10 33 10** for a free garage roof survey.

Garage Doors.

Your Garage door is not only a security essential, it is the first thing people see when they look at your garage or indeed your whole home. It not only keeps your possessions safe it keeps out the weather and needs to look amazing.

Dont put up with a rusty, creaky or faulty garage door. We have over 60 years experience with garage doors in the West Yorkshire area. We have a large range of garage doors and installation teams spread throughout the whole West Yorkshire area.

We have fit hundreds of new garage doors to existing garages to improve both the appearance and security.

There are too many styles to show in this brochure so please call us free on **0500 10 33 10** and we can show you the whole range.

Flat Roofs.

We are certified installers for Firestone RubberCover™ and only recognised professional installers are allowed to these products to ensure the high standards which are specified by Firestone Building Products.

EPDM membranes can be installed on both new and existing roofs. Firestone RubberCover™ EPDM can overlay virtually any old roof provided the roof decking is sound and the existing structure can carry the load of the new roofing system. We will visit your property to ensure that the roof is sound and install the new roof cover to the correct specification.

We strongly recommend this type of roof covering as is it an environmentally friendly, sustainable flat and shallow pitched roofing system which will give years of leak free protection. This is easily the best solution for flat or low pitch roofs.

- No heat or boiling tar required.
- Quick & easy 1 piece installation.
- Remains highly flexible to -40°C.
- Attractive appearance.
- Little of no maintenance.
- Guaranteed for 20 years.

Grimston have over 60 years experience in the Yorkshire area and have thousands of satisfied customers.

We do not use agents, middle men, we deal direct and offer a complete package, removal of old garages, concrete base laying service and full installation.

Company History

Grimston Garages have come a long way in 60 years !

We have over 60 years experience in West Yorkshire with:-

- Garage Repairs.
- Garage Refurbishment.
- Garage Asbestos Roof Removal.
- Garage Roofs.
- Discount Garage Doors.

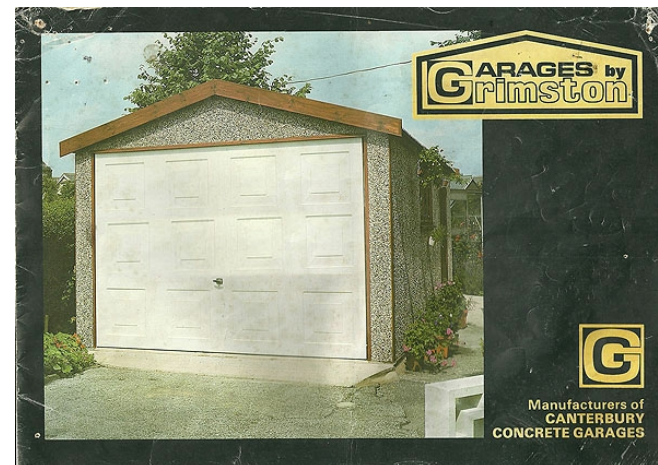

Through the 1950s John Grimston progressed to manufacturing the concrete garages the company is so well known for. The 1960s were the hay day of the concrete garages; at its peak Grimston garages of Queensbury were producing 100 garages a week.

John became very wealthy and successful.

Unfortunately he died in 1971 after an accident on his boat, he left a wife and young family.

The company still with the famous Grimston name changed hands and was eventually taken over by a larger national company Nucrete (of Pudsey nr Leeds) in 1980.

David Carol was the owner at this point and along with his sons and son in law ran the business as Grimston Nucrete. In 1995 the company hit a few problems and was split into Grimston now the refurbishment side of the business (Grimston made over 100 000 garages in over 40 years).

This side of the business was taken over by the O'Brien family Jude and his son Shaun.

The new garages are still manufactured by Nucrete (the Carol family the two sons Simon and Andrew). David passed away recently and is sadly missed as he and John Grimston were cut from the same cloth, self made men of great character.

In the key days of Grimston 100 garages a week were being produced. We are a family run business who believe our Commitment to customers is unequalled and we operate on a much smaller scale now we offer a comprehensive service direct to the customers.

We have a long history of manufacturing, installing and repairing garages.

Trust Grimston with your garage.
